

## Mathematics

### In maths we are learning to:

- Solve addition and subtraction equations with one and two digit numbers up to 100.
- name coins and notes and understand their value.
- represent the same value using different coins
- understand how to use money in a real-life context.
- solve addition and subtraction word problems using money.
- Share a total equally and find the number of group.
- Explore arrays.
- Build on previous understanding of halves and quarters.

## Literacy

### In literacy we are learning to:

- create a poster that informs people how to stay healthy.
- Identify the features of a leaflet.
- Write our own 'how to look after a pet' leaflet.
- Understand and use the contractions 'I'm, 'I'll, 'we'll' and 'isn't'.
- use question marks and exclamation marks appropriately when writing a sentence.
- Describe a setting using geographical vocabulary.
- Write a letter to London class telling them about their year in Cairo class.

## Role Play

Mini beast explorers role play corner.

## Handwriting and Phonics

In handwriting we are continuing to join groups of letters and apply this knowledge in all our writing.

In phonics we are consolidating all taught sounds and practising our word reading.

## Design and Technology and Art

### In DT and art we are learning to:

- Design and make an animal puppet.
- Explore and create our own piece of aboriginal art.
- Observe and sketch different animals using just pencil.

# Awesome Animals!

Summer 2 2017

## CURRICULUM MAP

Year One Cairo Class

## Science — Animals including humans

### In science we are learning to:

- Identify and name a variety of common animals.
- Describe and compare the structure of a variety of common animals.
- Identify, name, draw and label the basic parts of the human body and make connections to our senses.

## Geography

### We are learning to:

- Research the origins of different animals from around the world and locate them on a map.
- Identify the features of a town, city, village and island.

## Music

### We are learning to:

- Learn and perform songs about animals and the human body.
- Use instruments to enhance our performances.

- **R.E**

### In RE we are learning to answer the big question:

What responsibility has God given people about taking care of creation?

## P.E – Athletics and Kwik Cricket

In PE this term we will be:

- Continuing learning basic athletic skills.
- Practising for sports day.
- Learning the rules of Kwik cricket.
- Practising the skills needed to play Kwik cricket.

## Trips

Singing Festival and Chessington World of Adventures.
